

RENDERREPLY CREATOR STOREFRONT MANUAL

Creator Storefront Builder - Operational Guide

Complete Step-by-Step SOP for Building, Customizing & Monetizing Your Storefront

01 Store Setup & Creator Profile Configuration

Configure your primary storefront profile, creator identity, custom handle URL, verified creator badge, and social media brand links.

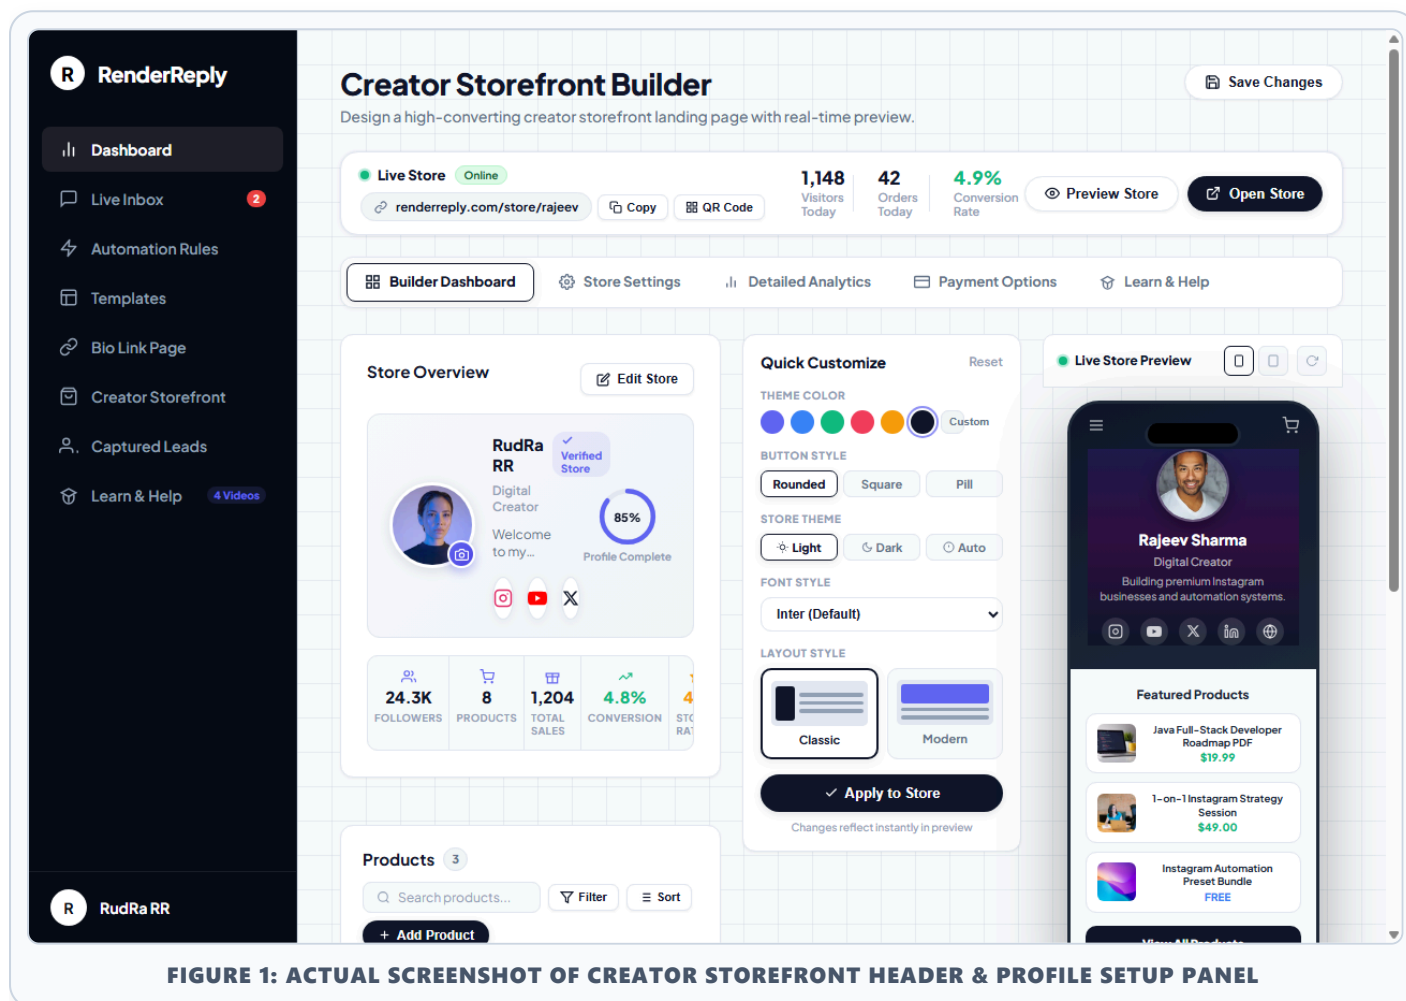

FIGURE 1: ACTUAL SCREENSHOT OF CREATOR STOREFRONT HEADER & PROFILE SETUP PANEL

STEP 1 Access Creator Storefront Builder

Select **Creator Storefront** from the main navigation sidebar. The top status bar indicates live store auto-sync status, total storefront views, total catalog clicks, and your custom storefront URL (e.g. `renderreply.com/store/rajeev`).

STEP 2 Set Store Name & Custom Handle URL

In the **Profile Info** panel, enter your Store Name (e.g. *Rajeev Sharma*) and custom handle (e.g. *rajeev*). Your storefront URL automatically updates across the application and QR code generator.

STEP 3 Upload Creator Avatar & Enable Verified Badge

Click on the camera badge icon next to your avatar to change your creator profile image. Enable the **Verified Creator Badge** toggle to add an official verified checkmark pill to your storefront.

STEP 4 Connect Brand Social Media Accounts

Input your official Instagram profile handle, YouTube channel URL, and X / Twitter handle. Click **Save & Publish Store Info** to update your live storefront.

Pro Tip: Click **Copy Store Link** or **QR Code** at the top right to instantly copy your store link or download a printable QR code.

02 Digital Product Catalog & Monetization Studio

Manage your digital product suite, set pricing tiers, configure promotional badges, and add direct payment checkout links for instant digital delivery.

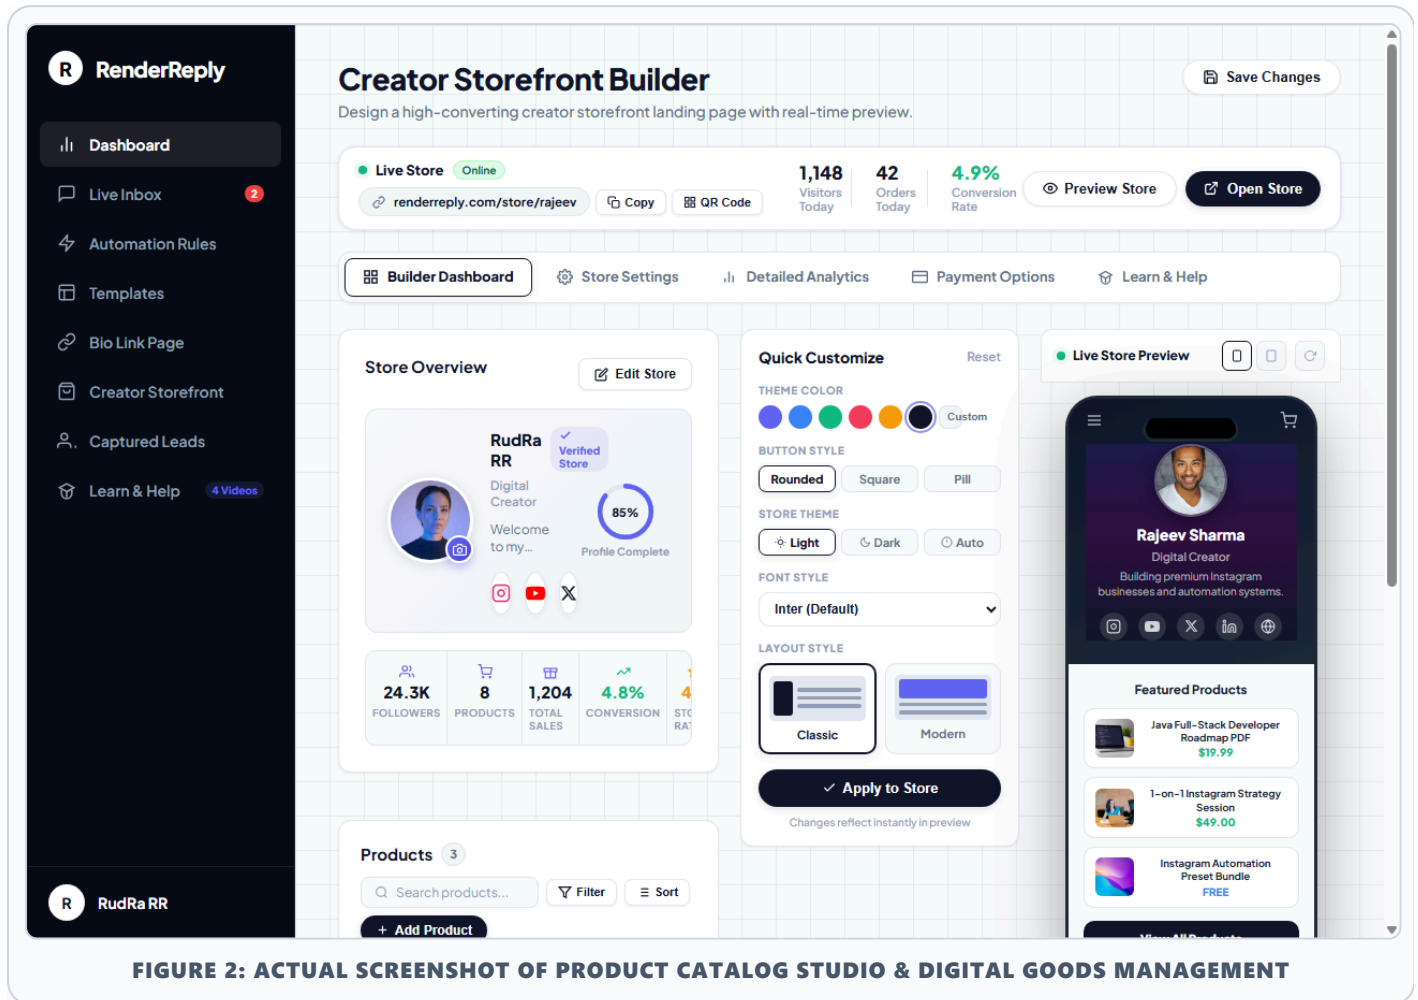

FIGURE 2: ACTUAL SCREENSHOT OF PRODUCT CATALOG STUDIO & DIGITAL GOODS MANAGEMENT

STEP 1 Open Product Studio Panel

Click on **Product Studio** in the Storefront settings sidebar. View your catalog of active digital products, including E-books, Video Courses, 1-on-1 Consultation Calls, and Membership Templates.

STEP 2 Add New Digital Product or Service

Click **+ Add New Product** to launch the Product Studio editor. Select product category (Digital Download, Masterclass Course, Coaching Call, or Template Pack).

STEP 3 Configure Product Title, Pricing & Promotional Badges

Enter product title, pricing (e.g. \$49), original price for strike-through discount display, thumbnail image URL, and select promotional badges like BESTSELLER, POPULAR, or HOT.

STEP 4 Add Payment Links & Order Reordering

Attach direct Stripe, Razorpay, or custom checkout payment link URLs. Drag and reorder product cards so your top-converting product appears at the very top of your storefront.

Pro Tip: Use eye-catching cover images and discount tags to boost checkout conversion rates on Instagram DM automated triggers.

03 Storefront Themes & Real-Time Live Preview

Customize the aesthetic look and feel of your storefront with curated color themes, button corner styles, and test user interactions in real time.

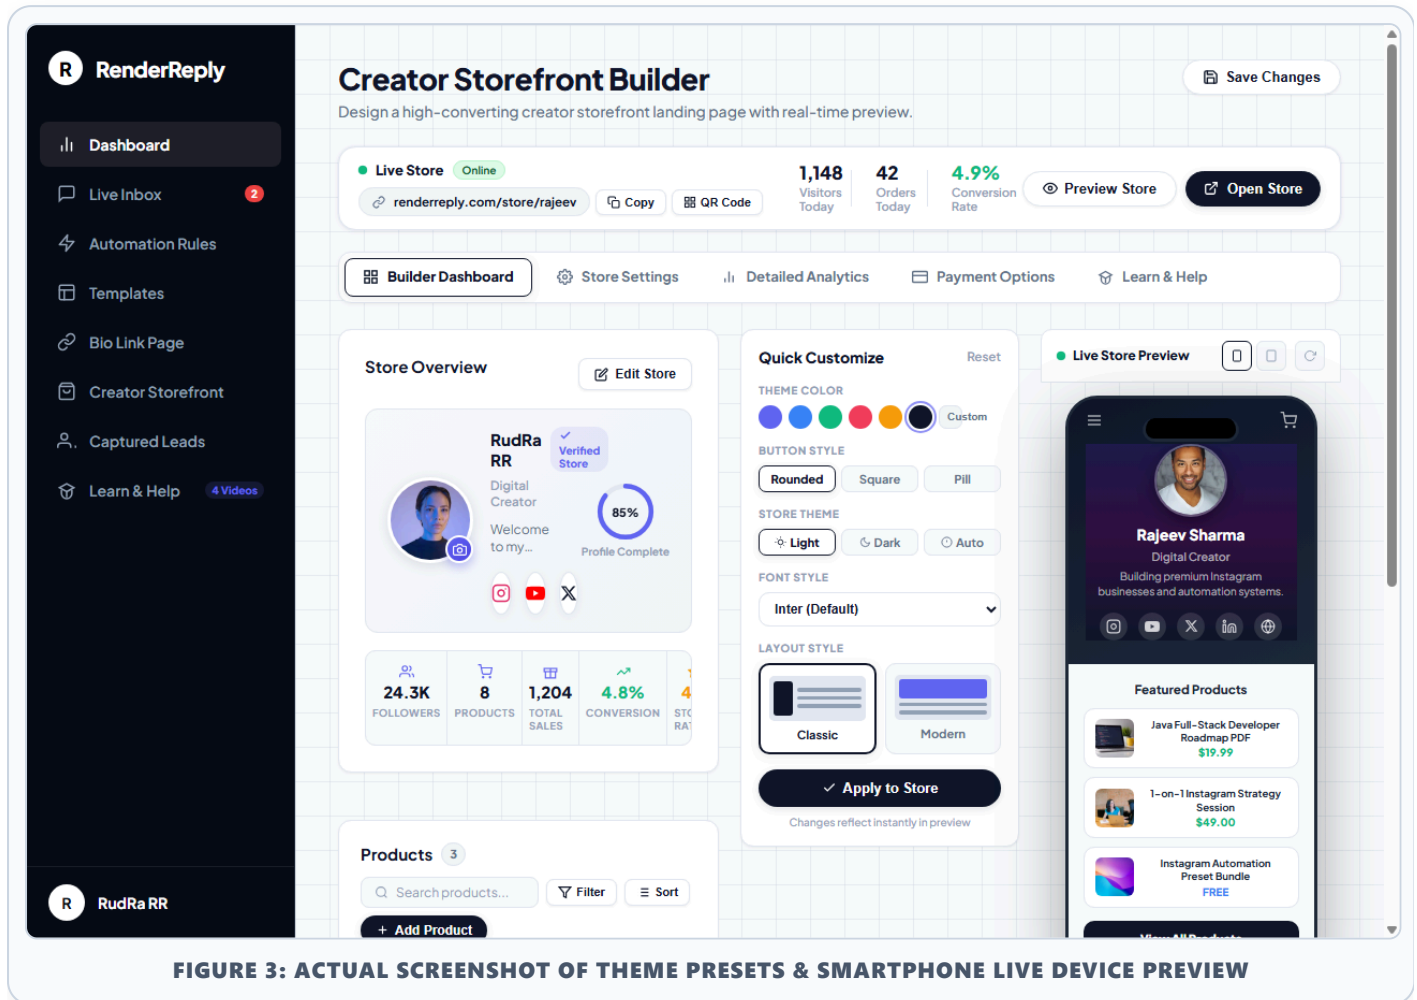

FIGURE 3: ACTUAL SCREENSHOT OF THEME PRESETS & SMARTPHONE LIVE DEVICE PREVIEW

STEP 1 Select Preset Color Theme

Navigate to the **Theme & Aesthetics** tab. Select preset visual themes such as *Indigo Slate*, *Midnight Dark*, *Violet Glass*, *Sunset Gradient*, or *Emerald Minimal*.

STEP 2 Choose Button Corner Style & Typography

Choose corner styles for product action buttons: **Rounded Pill** (fully curved), **Soft Rectangle** (rounded corners), or **Sharp Flat**. Select typography font family.

STEP 3 Interact with Real-Time Smartphone Preview

The smartphone frame on the right displays instant updates as you edit products, themes, or profile info. Click product buttons directly in the phone screen to test the live user experience.

STEP 4 Save & Open Live Web Storefront

Click **Save Changes** at the top right header. Use **Preview Store** to launch your live store window in a browser overlay and verify performance.

Pro Tip: Dark space and gradient themes perform exceptionally well for video course and template storefronts.
